Rita Schmidt Sudman ► Water Leaders

In the final [Delta Plan](#), how strong should [regional water strategies and self-sufficiency](#) be to improve conditions in the [California Delta](#)?

DELTA STEWARDSHIP COUNCIL

The Delta Stewardship Council was created in legislation to achieve the state mandated coequal goals for the Delta. "Coequal goals" means the two goals of providing a more reliable water supply for California and protecting, restoring, and enhancing the Delta ecosystem. The coequal goals shall be achieved in a manner that protects and enhances the unique cultural, recreational, natural resource, and agricultural values of the Delta as an evolving place." (CA Water Code §85054)

5th Draft Delta Plan – Regional Self-Reliance

1 Policy:

- Defines when a covered action to export water from, transfer water through, or use of water in the Delta can be *inconsistent* with the Delta Plan

DELTA STEWARDSHIP COUNCIL

The Delta Stewardship Council was created in legislation to achieve the state mandated coequal goals for the Delta. "Coequal goals" means the two goals of providing a more reliable water supply for California and protecting, restoring, and enhancing the Delta ecosystem. The coequal goals shall be achieved in a manner that protects and enhances the unique cultural, recreational, natural resource, and agricultural values of the Delta as an evolving place." (CA Water Code §85054)

5th Draft Delta Plan – Regional Self-Reliance

5 Recommendations:

- 1. Develop Guidelines for “Water Reliability Element”**
- 2. Track water supply reliability performance measures and assess improvements in regional self-reliance**
- 3. Revise state loan and grant funding criteria**
- 4. Incorporate water efficiency measures into state facilities**
- 5. Evaluate and secure all feasible alternative supplies**

Water Leaders: Do you think the Delta Plan should address groundwater? How?

Newsha Ajami Yes, it should encourage sustainable management and recharge; create incentives!

Magill Weber No, it's way too complicated. Let the regions deal with groundwater. They know what's best.
